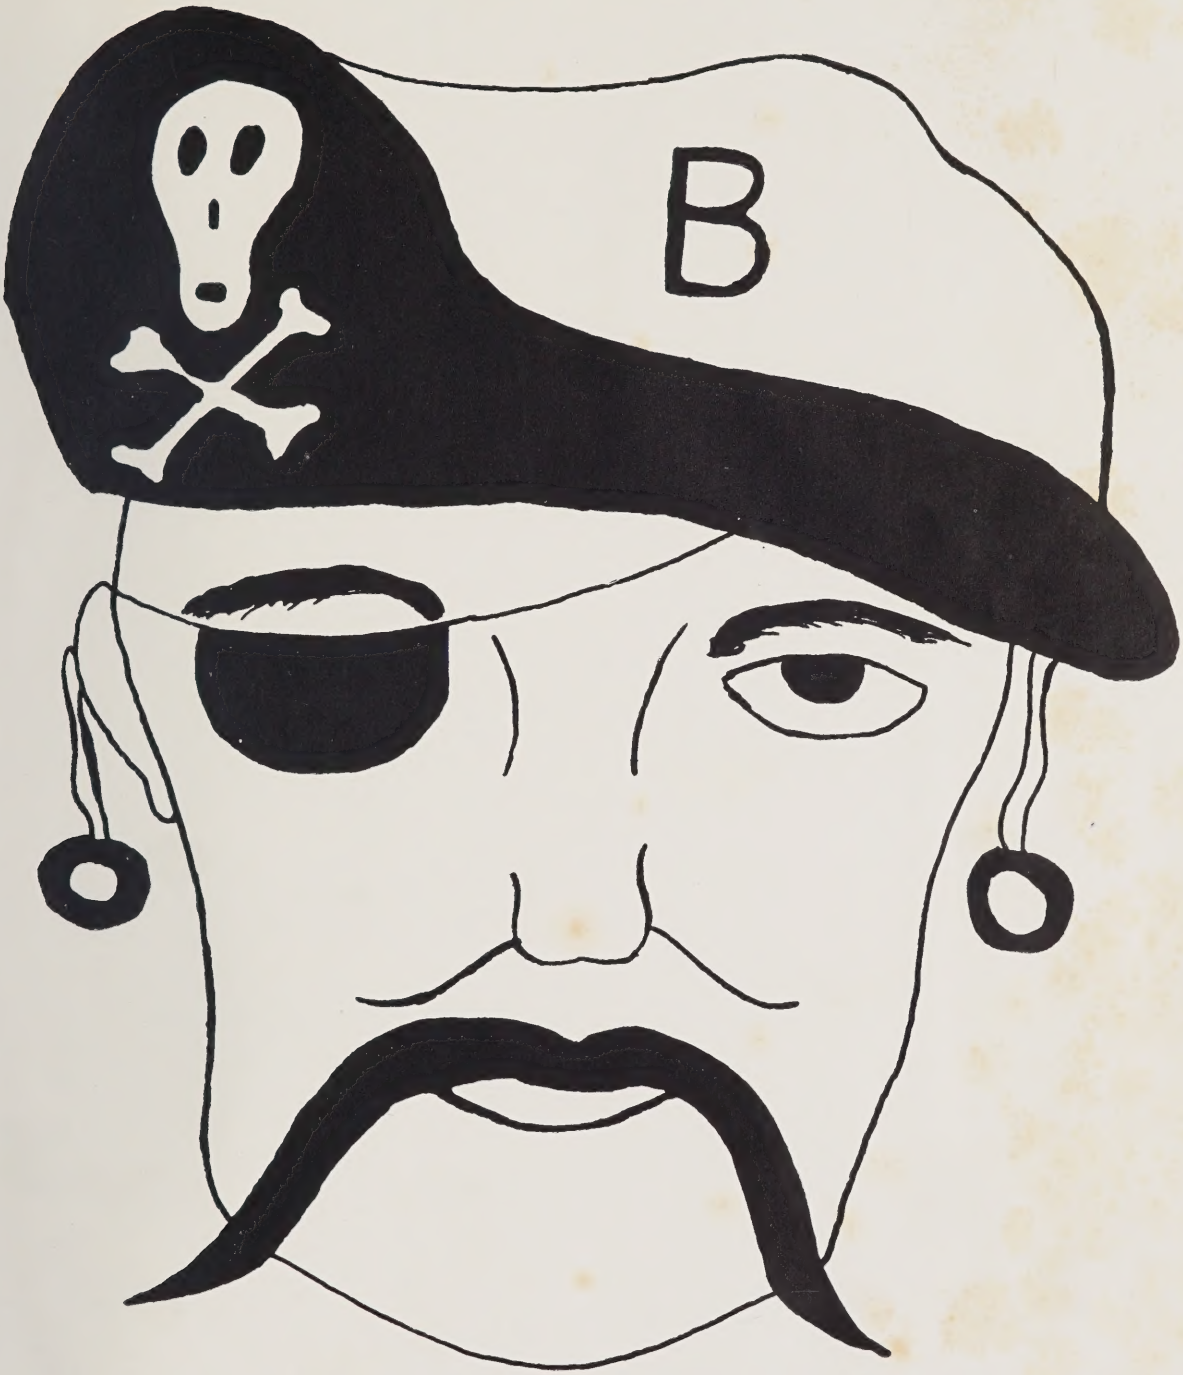
Presenting to the



Pirates

The 1967 Treasure

DOROTHY SHEPPARD, Editor

DON WOLLARD, Assistant Editor

EUNICE TANKARD, Business Manager

BRENDA CUTLER, Asst. Business Manager

RICKY CARTWRIGHT, Photographer

LENORA WATERS, Artist

Time is a unique and baffling dimension. Thoûgh Always constant, it can fly by with uncanny swiftness, or it can drag on with agonizing monotony. Twelve years seems like a long time. . yet for the 1967 Seniors, graduation will come too swiftly. We, the staff of the 1967 "Treasure Chest" hope to capture some of your memories of this year, and to record these moments for recall in future years.

Chest

Vol. 21

Bath High School
Bath N.C.

We begin our school days with eager steps of anticipation and excitement.

Before us lies a challenging world, sometimes gentle and fun loving------sometimes awesome and demanding yet always leading us to the peak of new achievements. Never subduing but guiding us to new adventures----------

and activities.

Welcome
To
School!

The years pass swiftly and we move in the amusing-------and confusing world of high school. Here new faces, new friends, and as always more books and work----------

------but also more time

for fun and play. Leading us to

the obtainment----When we finally

become--------

"Every day a busy one"

Constantly in contact with students and faculty, Mr. Forbes and his able assistant, "Mrs. Hilma", rarely find time for a restful moment.

It is due to their tireless efforts, however, that many of the necessary daily routines are accomplished with a minimum of effort and time.

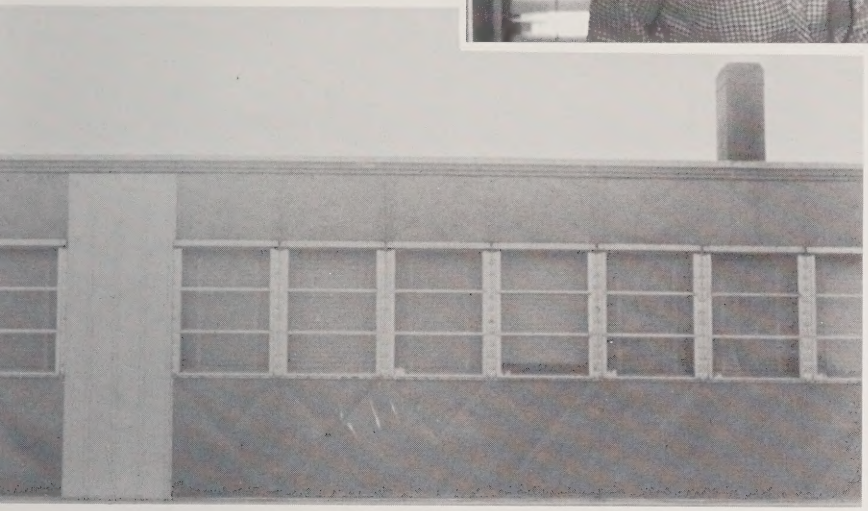
This year we have a new class, the kindergarten. There are 25 students in this newly formed class.

Here they work, learn, and play.

Mrs. Boyd is the teacher with Mrs. Forbes as her assistant.

They have a big job, and it takes a lot of patience and understanding.



This is the outside view of the Kindergarten classroom.

School Helpers

One of the many duties of the library staff is to assist Mrs. Rogerson in keeping the books in the proper places.

Members of the office staff were very helpful to Mr. Forbes and Mrs. Elliott. They run errands and help with the general office work.

With the help of Mr. Hoyt Wooten, the Future Farmers of America have progressed a great deal this year.

TGS

TEXAS GULF SULFUR COMPANY

This mechanical Goliath--largest dragline excavator ever used in phosphate mining--operates around the clock at Texas Gulf's Lee Creek mine on the south shore of the Pamlico River. You can get an indication of its size by looking for the man standing by the door on the side of the 8,880,000-pound machine. Swinging at the end of the 300-foot boom is a bucket loaded with 72 cubic yards of phosphate ore, enough to fill a two-car garage. More than 500 new jobs have been created by the opening of the mine and related fertilizer material plants at Lee Creek. TGS is proud to share in the growth and development of the Pamlico area.
